Notes: [a] As given, but almost certainly an error for 2341. MOSCOW's internal serial number 2537 was originated on 12th June 1944; moreover MOSCOW's internal serial no. 2334 was originated on 30th May 1944 and no. 2389 on 2nd June 1944. Note that this is from the series used by VIKTOR, and is not one of PETROV's numbers, suggesting that PETROV countersigned the message.  
[b] Inserted by translator.
